How to get to Google Drive and other Google Apps

The easiest way to get to Google Drive on your computer is to use your web browser (Google Chrome is recommended) and go to **drive.google.com**.   Many of the Google services (also called Google Apps) can be accessed by typing the name of the service followed by a dot (.) and google.com. For example, Google Maps is maps.google.com, Gmail is mail.google.com, etc.

If you go to Google.com, you can also access Google Apps by clicking the Google Apps button:
