

More Impressiveness

more practice with Google Docs

Overview

For this assignment, you will practice creating a Google Docs document. This is to reinforce the concepts you learned in the last module. **IMPORTANT:** Be sure you have watched these three instructional videos at [Google Drive Resources](#)

1. The Google Drive Interface,
2. Creating a Document with Google Docs (Overview)
 - 2.5 Working in Google Docs (a more detailed look at Google Docs)

Assignment:

Use Google Docs and recreate the document [More Impressiveness](#). You should not insert text which is in red. The red text is there only as explanation for the assignment. Your formatting does not have to exactly match mine, but should be similar. After creating the document, move the document into your Google Drive course folder (BCIS 1305 yourname).

Submitting the Assignment

In Blackboard, for the assignment, **More Impressiveness**, submit the following items.

1. A clickable link to your Google Drive Course folder (BCIS 1305 yourname). You should have shared this folder with me in a previous assignment. The text for your link in Blackboard should be **My Google Drive Folder**. Your link should open in a new window. Note: check to be sure the folder is shared with me properly (using my Google address of cammackje@gmail.com) and be sure it is **not** shared with an unrestricted link (sometimes called a “shareable link”).
