

# Advanced Queries - Northside Music Database Assignment 4

## Before you Begin

Before starting this assignment, be sure you have completed the **Create Database and a Table**, **Create Employee Table** and **Create Queries** assignments.

## Tasks to Complete

Add these three employees to your **Employee** table in the **Northside Music Database**

Le	Cyyna	42 Circle Dr.	Lake Charles	LA	70606	\$14.00	<input checked="" type="checkbox"/>
Garcia	Carolina	112 Mango St.	Deridder	LA	70634	\$25.00	<input checked="" type="checkbox"/>
Enriquez	Blake	111 Avenue B	Houston	TX	77007	\$14.00	<input type="checkbox"/>

Create the following queries.

1. Active Employees
  - **Query name:** Active Employees
  - **Fields to display:** first and last names, pay rate, and active/inactive status
  - **Sort Order:** last name, ascending
  - **Purpose:** display only the active employees
2. Active Employees from Beaumont
  - **Query name:** Active Empl from Beaumont
  - **Fields to display:** first and last names, pay rate, and active/inactive status
  - **Sort Order:** last name, ascending
  - **Purpose:** display only the active employees from Beaumont
3. Employees from Either Beaumont or Port Arthur
  - **Query name:** Employees from Either Bmt or PA
  - **Fields to display:** first and last names, city, pay rate, and active/inactive status
  - **Sort Order:** last name, ascending
  - **Purpose:** display only the employees from **either** Bmt or PA
4. Employees from Either Beaumont or Port Arthur OR pay more than 20
  - **Query name:** Employees from Either Bmt or PA OR more than 20
  - **Fields to display:** first and last names, city, pay rate, and active/inactive status
  - **Sort Order:** last name, ascending
  - **Purpose:** display only the employees from **either** Beaumont or Port Arthur, or those employees who make more than \$20/hr
5. Employees \$15/hr to \$20/hr
  - **Query name:** Employees 15 hr to 20 hr
  - **Fields to display:** first and last names, city, pay rate, and active/inactive status
  - **Sort Order:** last name, ascending
  - **Purpose:** display only the employees who are paid between \$15 and \$20 per hour
  - **HINT:** if you wanted to get customers with a balance between \$50 and \$300 from your customer table, you would enter this in the query Design View

Balance
Customer
<input checked="" type="checkbox"/>
> 50 And < 300

## Submitting your work

When complete, upload your database file (NorthsideMusic.accdb)
