

Blog Assignment - Part 2

Assignment

Last week you created a blog and made two posts. You were to provide your team members with your blog's address via link in the **All About Team X**. This week, you are to go and read your team members' blog posts, and comment appropriately on each post. (If someone has more than two posts, you only need to read and comment on the first two posts for that team member.) **This needs to be completed within four days after the original due date of Creating a Blog assignment. After that time (after the 4 day period is complete)**, you are to then take one screenshot of each of **your** blog posts with comments and submit as shown below. (You might not be able to get all the comments in the screenshot.)

Submit Your Assignment

In BlackBoard, submit the two screenshots and a clickable link to the public web address to your blog. Remember, when submitting your link in Blackboard, be sure you have `http://` (or `https://`) at the beginning of the URL, for example, `https://recipesbyjimc.blogspot.com` instead of just `recipesbyjimc.blogspot.com`
