

Overview

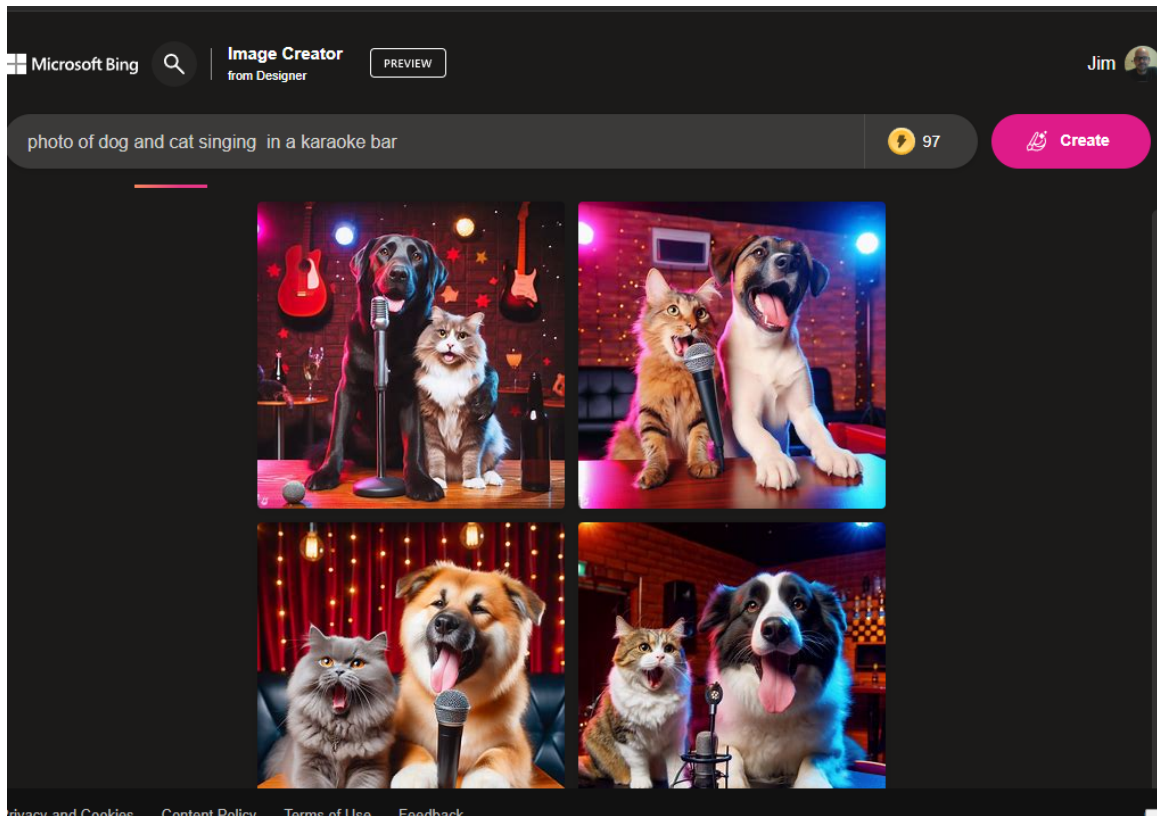

In this assignment, you will create images using an AI image creation product from Microsoft Bing. You will need a Microsoft account.

Assignment

1. Go to [Image Creator from Microsoft Designer](#) Describe something you;d like to create, such as “photo of dog and cat singing in a karaoke bar” Click Join and Create (see screenshot below)

The screenshot shows the Microsoft Bing Image Creator interface. At the top, there's a search bar with the text "Describe what you'd like to create". Below it is a prominent pink button labeled "Join & Create" with a red circle around it. To the right, there are two AI-generated images: a traditional Chinese pagoda and a group of women singing in a karaoke bar with cats. The page also includes a "PREVIEW" button and a footer with links for "Privacy and Cookies", "Content Policy", "Terms of Use", and "Feedback".

2. You will need a Microsoft account for this assignment. If you don't have a Microsoft account, you can create one with these instructions. [How to create a new Microsoft account](#)
3. Login with your Microsoft account. EventuallyBing should generate images. If you don't like these you can modify the prompt and click create

4. Click on any one on the pics and you should be able to Share, Save, or Download.
